

Simple, Smart, Responsible

WHY IS A REPATRIATION MEMBERSHIP PLAN SO IMPORTANT?

So many Americans are away from home these days for business, family visits and recreation. Traveling has become second nature to most of us and we tend to forget that when we're away from home... anything can happen, including death. Our plan takes care of everything for you in the event that a death takes place more than 75 miles from your home.

We believe everyone should be protected. Life insurance is intended for the living. It takes weeks or months to collect the funds and a funeral home's service area is very limited. No one knows where they will be when they pass away. Our research shows that most people are not aware of who to call to make the transport arrangements, or the high costs associated with such an event.

You should be enjoying life worry free and let the experts at APASI handle the rest.

APASI

Evans Nordby

F U N E R A L H O M E S

80% of Americans, (over 18), will take an annual trip more than 75 miles or more, away from home.

The original Repatriation Membership Plan, that has been protecting families since 1994 and proudly covering almost 500,000 Members.

70% of our cases are, domestic and 77% of those cases were within 300 miles of a Member's legal residence.

We have handled returns from \$2,500, to over \$24,000.
